

JAGADEESH PEDDIREDDY

Full Stack Developer-MERN

Phone: +91-9948167234 Email: jagadeeshpeddireddy16@gmail.com LinkedIn: [jagadeesh-peddireddy](#)

Technical Summary

Full Stack Developer with hands-on experience in building responsive React.js applications and integrating REST APIs. Knowledgeable in backend development with Node.js, Express.js, and SQLite. Quick learner with strong problem-solving skills and the ability to adapt to new technologies efficiently. Actively seeking junior-level full stack or front-end developer roles to contribute and grow.

Education

Full Stack Web Development (MERN)

April 2024 – August 2025

IRC, CCBP Intensive 3.0 Tech program

B.Tech (Information Technology)

July 2017 – May 2022

Sasi Institute of Technology & Engineering, Tadepalligudem

CGPA: 6.85 / 10

Board of Intermediate Education (M.P.C)

July 2015 – June 2017

Sasi Junior College, Tanuku

Percentage: 96.2

Secondary School Certificate

July 2014 – June 2015

Bhashyam E.M High School, Tanuku

CGPA: 8.8

Skills

Frontend: HTML, CSS, JavaScript, React.js, React Hooks, Context API, Bootstrap

Backend: Node.js, Express.js, REST APIs, CRUD Operations, Django

Database: SQLite

Programming Languages: JavaScript, Python

Tools: Git, Unix

Experience

Front-End React — Training cum Internship

March 2023 – Jun 2023

Brainovision (Remote)

- Built responsive UI components using React.js, React Hooks, HTML, CSS, and JavaScript, integrating REST APIs and collaborating with Git/GitHub.

J.P. Morgan — Virtual Internship

July 2022 – August 2022

Forage (JPMorgan Chase Program)

- Integrated stock price data feeds to enhance real-time data visualization, improving user engagement.
- Utilized JPMorgan Chase tools to build visual dashboards, resulting in a 15% improvement in interface efficiency.
- Strengthened understanding of financial data analysis through hands-on practical modules.
- Optimized visualization workflows, reducing dashboard generation time by 30%.

Projects

Nxt Trendz (Ecommerce Clone) | Credentials: username – rahul, password – rahul@2021

Project Link

- Developed a responsive ecommerce platform with product listing, filters, sorting, similar products, and add-to-cart features using React.js.
- Implemented JWT authentication using cookies and protected routes with React Router, integrating secure REST APIs.
- Used Context API for global cart management, reducing code redundancy by 30% and enabling smooth component communication.
- Built a dynamic mobile-optimized UI using React.js, CSS, and Fetch API, including prime vs non-prime deals and real-time cart updates.

Jobby App | Credentials: username – rahul, password – rahul@2021

Project Link

- Developed a job search platform with Login, Home, Jobs list, filters, job details, and profile pages using React.js.
- Built reusable UI components and efficient form handling for a smooth and scalable user experience.
- Implemented JWT authentication using cookies and integrated REST APIs for jobs, search results, and profile data.
- Added protected routes and persistent session handling using React Router.
