Board of Intermediate Education (M.P.C) <i>Sasi Junior College, Tanuku</i>	July 2015 – June 2017 <i>Percentage: 96.2%</i>
Secondary School Certificate (SSC) <i>Bhashyam E.M High School, Tanuku</i>	July 2014 – June 2015 <i>CGPA: 8.8 / 10</i>

Skills

Frontend: HTML5, CSS3, JavaScript, React.js, React Hooks, Context API, Bootstrap
Backend: Node.js, Express.js, REST APIs, CRUD Operations, Django
Database: SQLite
Tools: Git, Unix

Experience

Full Stack Developer Intern (MERN) <i>Brainovision (Remote)</i>	March 2024 – June 2024
Built responsive UI components using React.js and integrated REST APIs, improving feature deployment efficiency by 30% through structured Git/GitHub workflows.	
Software Engineering Virtual Internship <i>J.P. Morgan Chase & Co. — Forage (Remote)</i>	July 2022 – August 2022
- Merged stock price data feeds to enhance real-time data visualization, improving user engagement. - Utilized JPMorgan Chase tools to build visual dashboards, resulting in a 15% improvement in interface efficiency. - Strengthened understanding of financial data analysis through hands-on practical modules. - Optimized visualization workflows, reducing dashboard generation time by 30%.	

Projects

Nxt Trendz (Ecommerce Clone) React.js, JavaScript, REST APIs, JWT, Context API	April 2025 – May 2025
- Developed a fully responsive e-commerce platform with product listing, filtering, sorting, similar products, and cart management features. - Established secure JWT authentication with protected routes using React Router and cookie-based session handling. - Managed global state using Context API to improve component communication and eliminate prop drilling. - Integrated REST APIs using the Fetch API for dynamic content rendering and real-time cart updates.	
Jobby App React.js, JavaScript, REST APIs, JWT, React Router	June 2025 – July 2025
- Built a job search application featuring authentication, job listings, filtering, detailed job views, and profile management. - Implemented protected routes and persistent login sessions using JWT-based authentication. - Designed reusable UI components to improve scalability and maintainability. - Incorporated REST APIs for job search, profile data retrieval, and dynamic UI updates.
